## Introduction

Name: HithotX

Ticker: HITX

Type: Trc20

Platform: Tron

A decentralized finance network

HITX Token is a platform for the future of funding that is built on top of the Tron blockchain. It accelerates growth of start-up companies by offering tools and services that save both time and resources.

Based on the Tron protocol. It allows fast, secure, low transfer fees. Which will be great for adoption.

# Future

Decentralization in any area is a response to the problems of centralized systems. Decentralization in government, the topic most studied, has been seen as a solution to problems like economic decline, government inability to fund services and their general decline in performance of overloaded services, the demands of minorities for a greater say in local governance, the general weakening legitimacy of the public sector and global an international pressure on countries with inefficient, undemocratic, overly centralized systems.

The following four goals or objectives are frequently stated in various analyses of decentralization.

(Wikipedia)

*By the end of 2021, HITHOTX will be completely decentralized.*

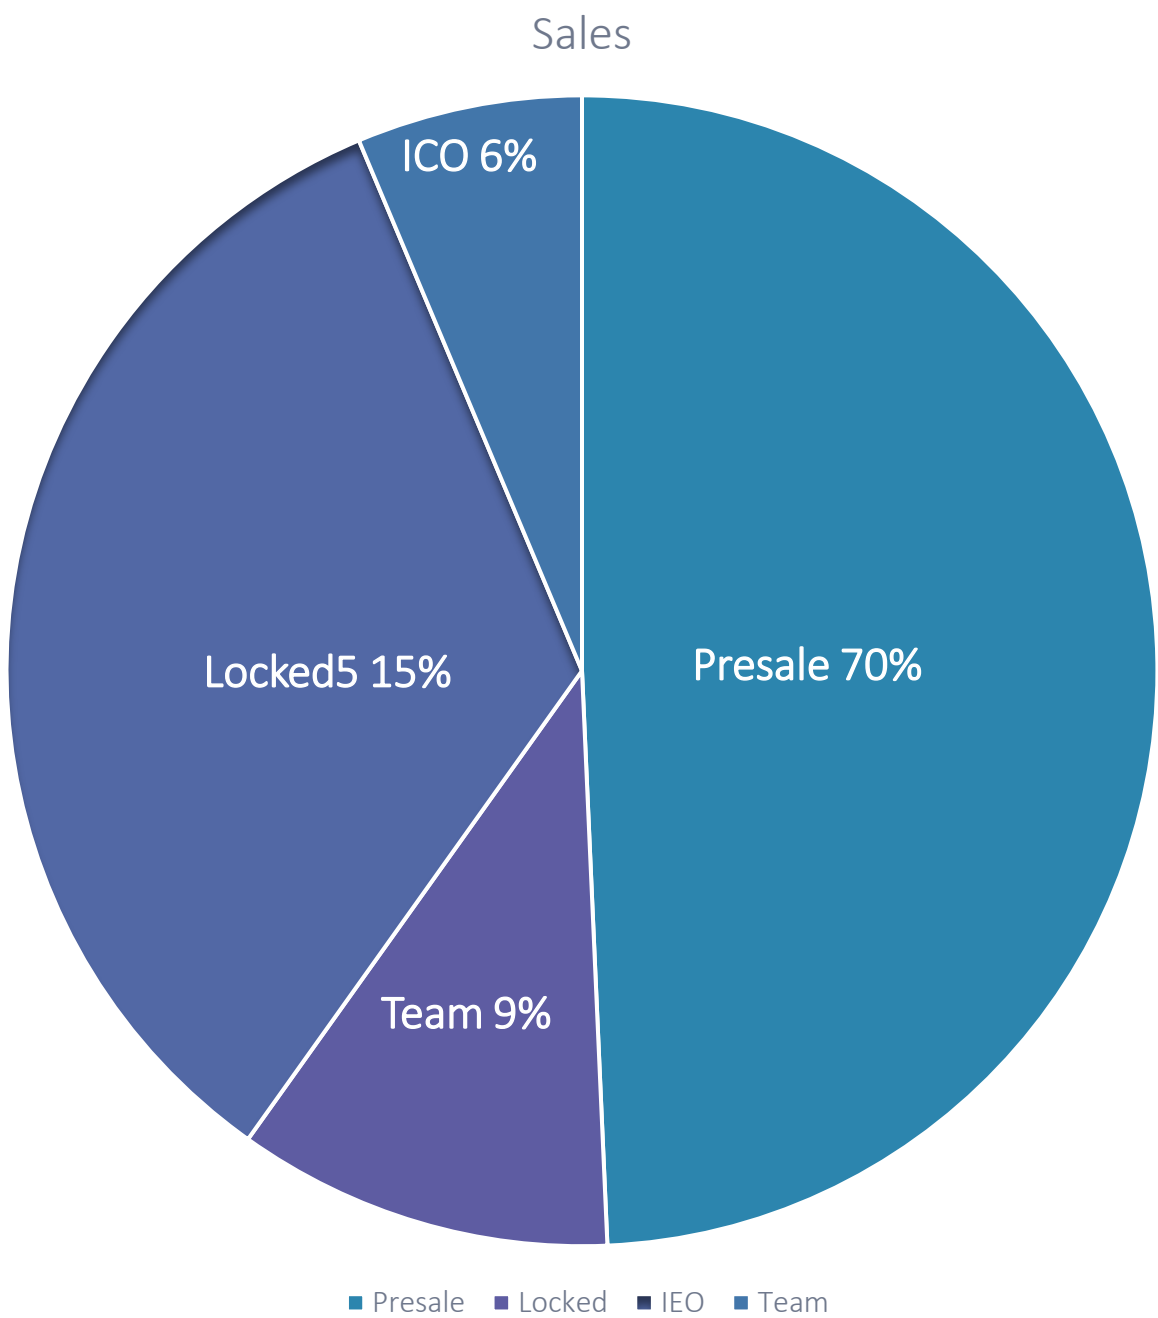

## GOAL

The goal is very simple.

- 1) HITHOTX EXCHANGE
- 2) HITHOTX Blockchain
- 3) Listing on CMC Top 20<sup>th</sup> exchange
